

OC M76-269  
22 APR 1976

MEMORANDUM FOR: Director of Logistics  
ATTENTION : Procurement Division  
THROUGH : Director of Joint Computer Support  
25X1 FROM : [redacted]  
Director of Communications  
SUBJECT : Replacement of the OC Cryptographic Accounting and Warehousing IBM System/3 Model 10

1. Procurement action is requested to contract with IBM for a Model 4 configuration of the System/3, which will replace the currently leased Model 10 configuration. The Model 10 is a punched card media system which has served OC well for over six years. The Model 4 is a current technology computer with disk file secondary storage and Cathode-Ray-Tubes (CRT) for file actions. A summary of the planned replacement is attached, including an equipment configuration chart. A requisition (#6179-76117-001, dated 26 April 1976) is being processed separately, along with source selection justification. Funding of \$70,000 in FY-76 is available to cover the hardware procurement.

2. OC representatives have had technical discussions with members of your Offices concerning this request. The primary contacts have been with [redacted] in OL, and with [redacted] in OJCS.

3. A delivery date of 29 October 1976 is requested; installation will be [redacted]

25X1 4. [redacted] of the Communications Security Staff is designated as the technical contact officer. He
